|----|---|-----|
| 1. | Combating climate change should be the top priority, even if it delays America's economic recovery | 18% |
| 2. | Securing America's economic recovery should be the top priority, even if it delays action on climate change | 76% |
| 3. | Unsure DNR | 4% |
| 4. | DK/refused DNR | 3% |

2. Do you believe that federal and state policymakers who have been promoting policies to fight what they believe is a serious threat from global warming are.... **ROTATE**

| 3. | DK/Refused DNR | 12% |

3. Congress is considering limiting emissions of greenhouse gases by restricting the amount of these gases industry and others can release into the atmosphere. Studies suggest this action would increase energy and consumer prices and reduce employment - although the estimates range from modest to high. Which of the following comes closest to your opinion...? **ROTATE**

- | | | |
|----|---|-----|
| 1. | Greenhouse gas emissions SHOULD be reduced even if reduction policies increase consumer prices and cause increased unemployment | 45% |
| 2. | Greenhouse gas emissions SHOULD NOT be reduced if doing so causes price increases and unemployment | 44% |
| 3. | DK/Refused DNR | 10% |

4. Studies suggest that federal action to reduce greenhouse gas emissions could increase unemployment in the US. Should this occur, which ethnic group do you believe will proportionately lose the most jobs?
